Bilt-Rite Orthopedics and Safety Introduces the New Dynamo Flashlight Foldable Walking Cane

Philadelphia, PA, October 2, 2008...Bilt-Rite Orthopedics and Safety, a manufacturer of quality "Made in the USA" orthopedic, ergonomic and occupational supports, is proud to introduce the versatile new Dynamo Flashlight Foldable Walking Cane.

Combining safety with accessibility, this amazing foldable walking cane is equipped with a flashlight, an emergency loud siren, and a safety flashing red warning light. Best of all, the cane never needs batteries as it gets its power from a very small dynamo built into the cane's handle. Cranking the dynamo for just a minute provides enough power to light the flashlight for up to 40 minutes.

Made from quality ABS and aluminum materials, the cane features a comfort grip, as well as a shock absorbing tip that provides traction and stability. Its lightweight design makes it easy to carry, and it folds and stores in seconds.

"This cane is unique product that is perfect for the elderly, as well as anyone concerned about night safety" said Will Palmer, Bilt-Rite's Operations Manager. "With its unique combination of always available flashlight, siren, and warning light, it's ideal even for use as a hiking stick, and its foldable design means you can conveniently take it with you anywhere."

Bilt-Rite is committed to providing quality innovative products that meet key medical needs, while also providing broad safety appeal. Bilt Rite's parent company is Mutual Industries, a leader and manufacturer of safety apparel, construction accessories and other OSHA related products and services.

"Bilt-Rite's product line is constantly expanding to include great products like this", says Palmer. "This unique cane provides extra safety features that really make it stand out in the market, while providing an extra sense of security for those who use it."

Bilt Rite is a quality manufacturer of orthopedic, ergonomic and occupational supports. Included among the products Bilt-Rite manufactures are: cervical neck collars; back supports; orthopedic pillows and cushions; as well as ankle, knee and elbow supports.

Across the country and abroad, Bilt-Rite is a leading provider to home medical dealers and distributors, health care professionals, hospitals and nursing homes. Spanish speaking sales reps are also on staff to service territories in Puerto Rico.

Bilt Rite will be exhibiting at the Medtrade Conference, Booth 3935, October 28-30 at the Georgia World Conference Center, Atlanta, GA. For further information on Bilt-Rite or its products, please contact:
